A passionate junior front-end developer with a focus on learning and rapid development. Despite of lack of real experience, I constantly educate myself, practice creating numerous simple projects and believe I'll exceed the expectations of future employer

WORK EXPERIENCE

Freelancer

Shelter For Pets

10/2022 - 10/2022

Achievements/Tasks

- Designed and developed a website for a Pet Shelter client with a focus on pixel-perfect accuracy according to Figma designs.
- Utilized HTML, CSS, and JavaScript to implement interactive and visually appealing elements, ensuring a positive user experience.
- Successfully met and exceeded client requirements through meticulous attention to detail in web development.

Freelancer

Async-Cars

11/2022 - 11/2022

Achievements/Tasks

- executed the development of an engaging game project, emphasizing asynchronous JavaScript for enhanced interactivity.
- Utilized HTML, CSS, and JavaScript to craft a seamless and enjoyable gaming experience.
- Achieved a successful outcome that highlighted both technical expertise and a commitment to creating immersive digital experiences.

Freelancer

Airways

06/2023 - 08/2023

Achievements/Tasks

- Collaboratively contributed to an airline project, emphasizing Angular as the primary tool.
- Showcased advanced proficiency in web development through the group effort, particularly in utilizing Angular to create a robust and user-friendly application for the airline domain.
- The successful collaboration resulted in a high-quality project that reflects a strong command of Angular and effective teamwork.
- Played a key role in delivering a comprehensive and well-executed solution, demonstrating both individual skills and the ability to work seamlessly within a team.
